**TERMS AND CONDITIONS**

1. All fees (Club, Summer, Winter) must be paid before the members boat is hauled and placed in yard. The Spring launch date is approximate and subject to logistics.
2. Positioning of boats is subject to safety and available space.
3. When possible a member will honor a request by another member to reposition his boat to allow a boat to be launched or moved out of the way in the event circumstances prevent the timely launching of said boat.
4. All deposits are to be by check or money order and be mailed to the club, or presented in person, along with this contract no later than the October meeting, to reserve your space. The total amount due, must be paid by the December meeting. (No payments for the following year will be accepted until all balances due for the current year are paid.)
5. The winter season is defined as November 2nd to March 31st. After June 15th, there is a charge of \$20.00 per day for all boats remaining in the yard. Anyone, who is blocked from leaving, will not be charged for that additional time.
6. Each member is responsible for hauling, blocking and any moving of his boat that may be necessary.
7. All boats must be positioned so that the available space is used efficiently. No boat may be positioned so as to use more space than is necessary, thereby leaving unusable space around it.
8. Each member is responsible for properly preparing his boat for winter storage.
9. Each member is responsible for removing radios, electronic equipment or any other property from his boat to prevent the possibility of its theft.
10. Each member **MUST**, after removing his boat from yard neatly store any blocks, lumber or stands used for storing his boat.
11. Members who are currently in the yard will be offered a contract for the following winter. After that contracts are offered by seniority according to space available.
